

ASLAN N 300

Clear non-adhesive rigid PVC film for creative applications

The non-adhesive transparent rigid PVC film in 300 µm has an ideal stability for the creation of lamp shades. By laminating textiles or PVC films onto it exclusive lamp shades or fairy lights can be created.

Construction

| | |
|------------|-----------|
| face-film: | rigid PVC |
| thickness: | ~ 300µm |

Characteristics

| | | |
|------------------------|---|----------------|
| dimensional stability: | after 48 hours stored at 70 °C (25 x 25 cm) | not measurable |
| chemical resistance: | In a preece test of 24 hours the applied film is resistant to most petroleum based oils, greases and aliphatic solvents, mild acids, alkalis and salts. | |
| light proofness: | not UV-stabilized | |
| combustibility: | The film is self-extinguishing. | |

Processing

| | |
|---------------|--|
| storage life: | Before application the films can be stored for minimum 3 years from date of production. The film must be stored at room temperature (15-25 °C) and a relative humidity of the air of 50-60%. To avoid pressure points appearing on the roll surface, we recommend the rolls be stored either vertical standing or for this purpose designed `hanging´ racks. |
|---------------|--|

State: 10|2013

All technical data and advice is based on our experience and measured testing that we believe to be reliable. It remains the customer's responsibility to test the suitability of our products for the intended purpose.

The quality of our products is regularly examined, upgraded and developed. We take the right, without prior notice, to adjust, upgrade and improve the chemical structures or physical characteristics of our products in accordance with our latest knowledge.
