## The non-adhesive rigid PVC-film for lamps shades and creative designs

The non-adhesive white rigid PVC film has an ideal stability for the creation of lamp shades. By laminating textiles onto it exclusive lamp shades or fairy lights can be created.

It is also an excellent backing for any craft work with self-adhesive textiles or foils.

For further information or questions regarding special applications please contact our technical advisory service: **+49 2204.708-80**

### Construction

Face film:	rigid PVC
Thickness:	~ 250 µm ~ 300 µm ~ 350 µm ~ 400 µm

### Characteristics

Dimensional stability:	after 48 hours stored at 70 °C (158 °F) (25 x 25 cm)	not measureable
Chemical resistance:	In a preece test of 24 hours the applied film is resistant to most petroleum-based oils, greases and aliphatic solvents, mild acids, alkaline and salts.	
Light proofness:	DIN 53 388	non-fade grade: 6-8 (wool-scale)
Combustibility:	Stuck on aluminum, the film is self-extinguishing.

## Processing

---

### Storage:

Before application the films can be stored up to 2 years from date of production. The film must be stored at room temperature (15-25 °C / 59-77 °F) and a relative humidity of the air of 50-60%. To avoid pressure points appearing on the roll surface, we recommend the rolls be stored either vertical standing or for this purpose designed 'hanging' racks.
